About the College

Al Shifa College of Arts & Science entered into the higher education sector in the year 2020. From its inception, our journey has been marked by significant milestones and a legacy of excellence. As a different league, our college has consistently embraced emerging trends to stay at the forefront of higher education. The institution regularly organizes seminars, workshops, and collaborative events on cutting-edge topics. This dedication to timely, relevant subjects reflects our mission to prepare students and faculty for the challenges of a rapidly evolving world.

About the Conference

“Revolutionizing Higher Education: AI Driven Policies, Practices, and Partnerships” is a forward-looking conference that aims to explore the transformative role of artificial intelligence in reshaping the landscape of higher education. As institutions strive to meet the evolving needs of students and society, AI is emerging as a powerful catalyst for innovation. This seminar will bring together educators, policymakers, researchers, and industry leaders to discuss AI’s impact on educational policies, teaching methodologies, administrative practices, and collaborative partnerships. Through insightful discussions, and interactive sessions with foreigners, participants will gain a deeper understanding of how AI can drive efficiency, inclusivity, and excellence in higher education.

Themes & Sub Themes of the Seminar

Theme: **AI in Language Education**

Personalized Language Learning using AI
AI and Language Translation
Use of AI in Literary Analysis
AI for Creative Writing
AI & Linguistic Research

Theme: **AI in Social Science Education**

AI in History, Sociology & Economics Education
AI in Mass Communication & Journalism
AI in Teacher Education & Training
AI in Law Education & Public Administration
Political Science Education and AI

Theme: **AI in Science Education**

Use of AI in Physics and Chemistry Education
Opportunities of AI in Biology & Zoology Education
AI in Computer Science Education
AI in Mathematics & Statistics Education
Psychology Education & AI
AI in Microbiology & Food Technology Education
AI in Geography & Geology Education

Theme: **AI in Commerce**

AI and Data Analytics in Commerce
AI in Human Resource Management & Recruitment
AI in Accounting, Auditing & Digital Marketing
AI in Market Research & Decision Making
AI in Entrepreneurship & Start ups

Theme: **AI in Arts Education**

AI in Performing & Visual Arts
Use of AI in Humanities & Cultural Studies
AI & Digital Arts
AI in Art Management & Entrepreneurship

Theme: **AI in Engineering Education**

Use of AI in Mechanical Engineering
AI and Civil Engineering
AI in Electrical and Electronic Engineering
AI in Aeronautical Engineering Education
AI and Robotics

Theme: **AI in Medical Education**

Use of AI in Clinical Training & Simulation
AI in Paramedical Courses
AI and Pharmacy Education
Opportunities of AI in Nursing Education
Use of AI in Medical Examinations & Tests
